FSC Forest Management Policy Statement

Burapha Agroforestry Co. Ltd. is committed to managing its forest resources responsibly and in full compliance with the Forest Stewardship Council (FSC) Principles, Criteria, and related Policies and Standards. This policy demonstrates our long-term dedication to sustainable forest management that protects environmental values, respects social and customary rights, and supports economically viable operations.

We commit to:

- Implementing forest management practices that maintain or enhance ecological integrity, biodiversity, and long-term productivity.
- Respecting the legal and customary rights of workers, communities, and Indigenous peoples, and engaging with stakeholders in an open, transparent, and culturally appropriate manner.
- Ensuring safe and fair working conditions, upholding human rights, and prohibiting forced labour, child labour, discrimination, and harassment.
- Preventing deforestation, forest degradation, illegal harvesting, and any activities that negatively impact High Conservation Value areas or ecosystem services.
- Avoiding corruption, bribery, and all forms of improper influence in our operations.
- Promoting continual improvement through monitoring, training, and adaptive management.
- Ensuring all employees, contractors, and partners understand and comply with this policy and with all applicable FSC requirements.

This policy is effective immediately and forms an integral part of Burapha's management system for FSC certification. It will be reviewed periodically and updated as necessary to maintain compliance and strengthen our commitment to responsible forest stewardship.
